

MEGA-BOSS SIGHTING

THE FAUNA HAVE COUNSEL

CONFIRMED SIGHTING

40-YEAR VETERAN

FORMER DIVISION BOSS

MECHANISM UNKNOWN

SHE DID NOT SPAWN THE FAUNA. SHE DID MAKE THEM LOOK ORGANIZED.

The encounter is real. The command aura is satire. The credentials are not.

FORTY YEARS ON THE MAP

Martha J. "Marty" Casserly - the formidable professional on the other side

1986-2026 DOCUMENTED PUBLIC-LAW SPAN | AAG | EDUCATION DIVISION | REG. NO. 0148271

1986

SPECIAL ASSISTANT ATTORNEY GENERAL

Official House records place her handling an Ethical Practices Board matter and answering legislative committee questions.

1987

ADMINISTRATIVE-PROCEDURE BUILDER

Credited among contributors to the original Minnesota Administrative Procedure edition - infrastructure work, not merely casework.

1996

AGO DIVISION MANAGER

Official AGO report names her Collections Division manager across bankruptcy, escheat, contracts, real-estate recovery, loans, penalties, and recovery litigation.

2000

EDUCATION-AGENCY COUNSEL

State Academies minutes record advice on public-school-board governance, liability, IDEA and state law, data practices, rulemaking, policy, and legislation.

2003+

FEDERAL APPELLATE TERRAIN

Public records identify her arguing state education matters in the Eighth Circuit, including Reinholdson and B.S. v. Anoka-Hennepin.

2005+

MDE APPELLATE RUN

Roseville, Robbinsdale, Centennial, Novation, Mahtomedi, and later federal MDE litigation span IDEA/FAPE, discipline, charter schools, PSEO, and constitutional claims.

2024

EDUCATION DIVISION AND CLE HUB

Public listings identify the Education Division and connect her office role to issue preservation, public-law ethics, data practices, open meetings, and Supreme Court updates.

2026

27-012C COUNSEL SIGHTING

Current AAG status is corroborated; her authenticated August 20 email identifies her as MDE counsel and returns the full complaint into the clearing.

WHEN THE INVESTIGATOR WAS WATCHING GUMMI BEARS,
SHE WAS ALREADY APPEARING FOR THE STATE.

WHY THIS IS A MEGA-BOSS

Not because of rank alone. Because the toolkit crosses the entire map.

MANAGEMENT

Former AGO division manager with an unusually broad recovery and litigation portfolio.

ADMINISTRATIVE LAW

Contributor to a foundational Minnesota administrative-procedure resource; legislative and agency-facing work by the 1980s.

EDUCATION AND IDEA

Board counseling, state and federal special-education litigation, discipline, charter schools, PSEO, and agency procedure.

APPELLATE

Minnesota appellate courts and the Eighth Circuit, with argued education cases and constitutional terrain.

PUBLIC-LAW TOOLKIT

Data practices, open meetings, ethics, issue preservation, rulemaking, agency governance, and CLE coordination.

CURRENT ENCOUNTER

Assigned respondent counsel in a live MDE-only complaint lane. The August 20 routing event activated the bestiary.

FAUNA EFFECTS OBSERVED

Clumsy Fox: encumbrance capacity increased to one complete 38-page complaint. **Quantum Parrot:** now able to hold multiple procedural answers in superposition. **Predicate Pickpocket:** clause-harvesting speed materially increased. **Finality Boomerang:** return radius expanded to the represented production universe.

These are satirical bestiary mechanics, not findings that Casserly directed any person, agency, email route, or creature.

PROOF LIMIT - KEEP THE JOKE HONEST

The source record proves a 40-year public-law span, an earlier AGO division-management role, a long education-law and appellate footprint, current AAG status, and the August 20 email. It does not prove forty uninterrupted years exclusively in education law, literal control of the fauna, personal selection of every recipient, motive, endpoint access, or wrongdoing. Respect the advocate. Audit the institution.

WRONGDOING ALLEGED: NONE. PROFESSIONAL THREAT LEVEL: EXTREME.
